- One in six Americans is pre-diabetic or diabetic.
- Over ten million Americans are taking anti-depressants.
- 50% of people over 85 will have Alzheimer's Disease.
- Heart disease claims a life every 34 seconds.

Cellular Energy Premium Fuel for your Cells

Feed the force with Cellular Energy – you'll feel the difference! Cellular Energy nourishes each cell with glycoproteins from organic brown rice, D-ribose and Coenzyme Q-10. Research has shown that these three nutrients are critical to the cellular energy production cycle, and provide antioxidant protection against free radicals. Together they literally increase the amount of energy that your cells manufacture, which makes you healthier and feeling more alive.

- Banishes fatigue
- Supports blood sugar regulators for consistent energy
- Nourishes cardiovascular system
- Improves mental function
- Supports nervous and circulatory system

"I love the flavor of the Cellular Energy powder, and it dissolves easily. We recently had a booth at the World Ag Expo, and I was able to be mentally alert on only three to five hours of sleep each night. I am amazed at this formula."

– Director Carol Thiesen, CA.

Cellular Energy Next Generation is part of the Life Track® Nutritional Support products that "keep your health on track for life."
