

Shield your building with the best

Proven over decades of exposure in the harshest environments, Conklin's Single-Ply Systems deliver superior protection from wind, hail and fire. They are also highly resistant to a broad range of chemicals, helping to extend the life of the roof. Like all Conklin Roofing Systems, our Single-Ply Systems are ENERGY STAR-rated and offer outstanding reflectivity and energy-efficiency. A Conklin Single-Ply Roof will deliver all these benefits for years to come:

- Stops leaks with superior waterproofing.
- Offers superior protection from wind and hail.
- Offers fire and chemical resistance.
- Increases energy efficiency and lowers utility expense.
- Can be applied in all seasons, performs in all climates.
- 20 year warranty available.

Flexion®

Recognized by major code approval agencies

This Elvaloy®-reinforced PVC provides rugged protection from the elements. Its unique chemical formulation is naturally fire-resistant, making Flexion an excellent choice for both new and re-roofing applications.

Hy-Crown®

Durable in the harshest of environments

Made with Chlorosulfonated Polyethylene (CSPE), Hy-Crown has proven its durability and longevity over decades of exposure in the harshest environments.

Recommended for application over roof decks made of:

- Concrete
- Wood
- Steel

Professional application of a Conklin Single-Ply Roofing System

1. Remove all loose dirt and debris and install board stock.

2. Apply membrane, overlapping seams in the direction of water run-off.

3. Weld seams by hand or with a robotic welder.

4. Seal free edges of membrane with urethane sealant.

A white Conklin roof is the smartest way to stay in the black

Reduce cooling expense by up to 30%

The average roof absorbs a large portion of the sun's ultraviolet rays as heat. Conklin's white Single-Ply roofing systems reflect 84% of the sun's heat, cooling your building and saving you as much as 30 percent in air conditioning costs.

Recoup your costs

A great return on investment is another important reason to install a Conklin Single-Ply Roofing System. Many satisfied building owners discover that a Conklin roof pays for itself during the warranty period in lower air conditioning costs. Federal tax rebates, tax credits and deductions may also offset your investment. Check with your local utility company, tax advisor, and www.energystar.gov for additional details.

Look forward to years of trouble-free protection, low maintenance

Conklin Single-Ply Roofing Systems provide leak-free protection and exceptional energy savings for years, often exceeding the warranty period. They maintain maximum reflectivity and energy savings because their surfaces are resistant to dirt and discoloration. Annual or bi-annual cleaning is all that's needed to keep them white.

Enjoy peace of mind with our Warranty Program

Conklin's optional warranty program includes a non-prorated material warranty.

Testing & Approvals

Conklin is a member of National Roofing Contractors Association (NRCA), Spray Polyurethane Foam Alliance (SPFA), a division of the American Plastic Council, E.P.A. Energy Star® and the Cool Roof Rating Council (CRRC). Our products meet or exceed the standards set by these organizations.

Conklin is a charter member of the Energy Star Program. Our products meet criteria established by EPA/DOE for energy efficiency and reflectivity.

Meets requirements of reflectivity and emissivity for inclusion in the CRRC program.

Approved under Florida State

Listed under UL-790 Class "A" Fire Rating
