

# FEAST® PREMIUM PLUS

with Slow Release Nitrogen

TURF FERTILIZER

**21-0-6** 

- Contains slow release water soluble nitrogen sources - turf stays greener, for longer period.
- Contains no phosphorus will not cause increased phosphate levels in surface water sources (linked to algae and weed growth).
- A user-friendly Feast® turf product pre-mix containing Feast® Premium Plus™ 28-0-0 and Feast® Side-Kick™ (provides both potassium and sulfur) for use by home owners and commercial applicators.

Net Weight: 26.5 Pounds (12 kg) 2.5 Gallon (9.46 L)

## WARNING

Harmful if swallowed or inhaled. Causes eye and skin irritation.

See back panel for additional precautionary statements.

### 21-0-6

### Guaranteed analysis:

lotal Nitrogen (N)	21.0%
12.1% Urea Nitrogen	
8.9% Other Water Soluble Nitrogen*	
Soluble Potash (K20)	. 6.0%

Sulfur (S) 4.0% 4% Combined Sulfur (S)

Derived from: urea, \*\* triazone, urea-triazine solution, methylenediurea, dicyandiamide and potassium thiosulfate.

\*8.9% slowly available nitrogen from \*\*triazine, urea-triazine solution, methylenediurea and dicyandiamide.

\*\*Triazine (s-tetrahydro triazone) is a synthetic, water-soluble nitrogen source.

F048

**DIRECTIONS FOR USE:** Feast® Premium Plus™ can be applied either undiluted or diluted with water or other liquids, using a hand gun or spray boom. Feast Premium Plus is compatible with many micronutrients sources as well as many turf protection chemicals (Sevin Sprayable and 2, 4-D Amine pesticides are not compatible). It is recommended that any proposed combination be tested for compatibility in a "jar test" prior to tank combination.

Each gallon contains 2.23 pounds of nitrogen, 0.6 pounds potash and 0.4 pounds sulfur (59.3 fluid ounces equals one pound of nitrogen).

Turf Type	Pounds Nitrogen per 1,000 sq. ft. per application	Maximum Pounds Nitrogen per year per 1,000 sq. ft.
Cool season grasses	½ to 1 lb.	3 ½ to 4 lbs.
Warm season grasses	3⁄4 to 1 lb.	6 to 8 lbs.
Golf greens & tees	Dilute ¼ lb. of nitrogen in 2 to 4 gal. water	Apply dilution at 7 to 10 day intervals

To obtain optimal product performance, Feast Premium Plus application intervals are recommended every **eight to 12 weeks**. Initial application starts in the spring, when first green-up occurs.

Nitrogen rate (Lbs./1,000 sq. ft.) 0.1	Feast Premium Plus (Fluid ozs./1,000 sq. ft.) 6.0
0.2	12.0
0.3	18.0
0.4	24.0
0.5	30.0
0.6	36.0
0.7	42.0
0.8	48.0
0.9	54.0
1.0	60.0

**NOTE:** Test small area of turf for possible injury prior to use, particularly at the higher rates. Injury can occur on turf when certain weather and crop conditions are present such as hot, dry conditions). Higher rates are less likely to cause burn to turf during cool, wet weather. Burn usually occurs within one to three weeks. The user assumes all risks of use or handling.

Feast® Premium Plus™ can be applied as a spray application on cool, transitional and warm season turf grasses. The list includes lawns, athletic fields, sod fields, golf course fairways, greens and tees. Depending on type of grass or application, use the recommendations found in charts to left or consult state extension service for N rate and recommendations.

MIXING PROCEDURE: To a tank one-half full of water (start recirculating) add Feast Premium Plus. Then add in this order – compatible micronutrients, flowables, emulsifiable concentrates, and soluble powders and/or water soluble fertilizers. Complete filling of spray tank to desired volume and continue circulating prior to application.

HANDLING AND STORAGE: Store out of the sun in an area of moderate temperature. DO NOT store at temperatures over 100° F (38° C) for prolonged periods of time. Store in fiberglass, stainless steel, polyethylene or mild steel. Avoid containers, piping or fittings made of copper-bearing alloys or galvanized metal. DO NOT reuse container. Dispose of containers properly after thoroughly flushing with water a minimum of three times. Keep spills from waterways and sewers.

#### ADDITIONAL PRECAUTIONARY STATEMENTS

**Precautions:** Avoid breathing mist, vapors and spray. Use only outdoors or in a well ventilated area. Do not eat, drink or smoke when using this product. Wear gloves, safety glasses or goggles, and long-sleeved clothing when handling. Wash hands thoroughly after handling.

Response/First Aid: If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. If swallowed: Call a physician or Poison Control Center if you feel unwell. Rinse Mouth. If on skin: Wash with plenty of soap and water. If skin irritation occurs: Get medical advice or attention. Immediately take off all contaminated clothing and wash it before reuse. If inhaled: Remove person to fresh air and keep comfortable for breathing.

Causes damage to Blood, Eyes, Respiratory System, and Skin through prolonged or repeated exposure.
