

# FORTIFIER®

Formulated with effective essential oils, vitamins, and minerals, this product aids horses in efficiently utilizing nutrients for health and performance.

## Fastrack Fortifier Supports:

- Weight Management
- Energy Conversion
- Stress and Recovery
- Circulation and Inflammation

*Two of my horses have been on Fortifier for 3 weeks, I can see them filling out more and they have a better coat.*

# FASTRACK® Fortifier®

Top-dress or mix into feed daily. For even better results, pair with Fastrack Equine Microbial and Enzyme Pack.

	Maintenance	Challenge
Mature Horses	1 oz.	2 oz.
High Performance	1.5 oz.	2 oz.

One scoop is equal to 1 oz. by weight.

Maintenance dosing is for times when the animal is not under strain but could benefit from maintaining a healthy microbiome. Challenge dosing is for irregular situations that can occur, suppressing the microbiome function.

## Minimum Guaranteed Analysis per 1 oz.

1,500 mg Ascorbic acid (Vitamin C); 250 IU Vitamin E; 185 mg Zinc; 100 mg Manganese; 65 mg Copper; 0.25 mg Selenium; Amylase<sup>1</sup> 248 SKB; Beta-glucanase<sup>2</sup> 340 BGU; and Bromelain<sup>3</sup> 143 GDU.

<sup>(1)</sup> SKB/g Amylase - One SKB (Sandstedt, Kneen, and Blish) unit is defined as the number of grams of soluble starch dextrinized, in the presence of excess beta-amylase, per hour under conditions of the assay (pH 5.0 and 40°C).

<sup>(2)</sup> BGU - One beta-glucanase unit is defined as the quantity of enzyme that will liberate reducing sugar (as glucose equivalence) at a rate of 1 µmol/minute under the conditions of the assay (pH 6.5 and 40°C). The hydrolysis of the lichenin substrate leads to an increase in reducing power due to liberated reducing groups and is measured by the neocuproine method.

<sup>(3)</sup> GDU - Gelatin Digestion Unit is that amount of enzyme which will liberate, after 20 minutes digestion at 45°C, 1 mg of amino nitrogen from a standard gelatin solution at pH 4.5

## Ingredients

Alfalfa Meal, Hydrolyzed Yeast, Ascorbic Acid (Vitamin C), Vegetable oil, Saccharomyces cerevisiae fermentation extract, Vitamin E Supplement, Zinc Amino Acid Complex, Oregano oil, Thyme oil, Rosemary oil, Vanilla, Copper Amino Acid Complex, Manganese Amino Acid Complex, Protease (from pineapple), Dried Trichoderma reesei fermentation product, Dried Aspergillus oryzae fermentation product.

## Fortifier Purchasing Options and Shipping Weights

#41860 5 lb. bag 5.2 lbs.

Keep cool. For extended shelf life, store in a refrigerator.

Fastrack is not intended to diagnose, treat, prevent or cure illness, nor is it intended to replace prescribed medications.
