

Specification Sheet

Rust Bomb®

Super Penetrating Oil

Benefits

- Penetrates rust, corrosion, tar, oil and hardened grease
- Penetrates “frozen” metal parts
- Provides lubrication during and after penetrating
- Fast acting
- Cleans fine parts
- Does not evaporate

Description

Conklin’s Rust Bomb penetrating oil is designed to quickly penetrate rust and corrosion to loosen “frozen” metal parts. The unique blend of solvents, petroleum distillates, and additives work fast to make quick work of tough jobs.

Applications & Directions

Apply Conklin’s Rust Bomb where needed. Tap part to cause vibrations. Let stand for a short time, then loosen part. For stubborn cases, repeat. Also can be applied to bolts and fasteners before using to prevent seizing.

Part Numbers

- #1248 1 – 12 oz aerosol
- #1214 12 aerosol cans/case
