

## 2014 AgroVantage Plot Results

Location: Bland, VA

Corn Silage Test Plot

### Amplify<sup>®</sup>-D Seed Treatment

	Control	Amplify-D
Silage, Tons	24.37	28.12
Advantage		+ 3.75 Tons

It takes a lot of energy for a seed to germinate successfully and Amplify-D is a seed germination aid that increases that energy to provide a jump start for each seed. For a small cost of less than \$2.50/A we had a huge increase of 3.75 tons of Corn Silage. Give your plants their full potential by applying Feast AgroVantage Products!
