

Heavy-Duty Cleaners

Crust Buster®

Lime & Scale Remover

Specification Sheet

Dissolves mineral buildup on non-metal surfaces. This powerful, fast-acting formula removes deposits and rust stains caused by hard water. Crust Buster works on multiple surfaces such as porcelain, acrylic, ceramic, and fiberglass, including tubs, sinks, showers, tile, toilets, urinals, pool areas, spas, institutional shower rooms, and fiberglass boat hulls.

Directions for Use & Dilution Rates

Exercise caution when using on cracked, chipped, scratched, or otherwise damaged surfaces. Safe for undamaged, acid-resistant fiberglass.

Light deposits/bathrooms fixtures: Use 1 ounce of Crust Buster per gallon of warm water (1:128 dilution).

Moderate deposits: Use 2 ounces of Crust Buster per gallon of warm water (1:64 dilution).

Heavy deposits: Use 4 ounces of Crust Buster per gallon of warm water (1:32 dilution).

Thick, caked-on deposits: Use Crust Buster at full strength.

Rise thoroughly with cool water after each application.

Note: Do not use on aluminum, chrome, polished brass, stainless steel, or other fine metals. Always test a small area first; Crust Buster may etch some surfaces.

Heavy-Duty Cleaners

Crust Buster® Lime & Scale Remover Specification Sheet

Specifications

% Acid by Titration:	9.6%		
Appearance:	Clear, purple liquid		
Biodegradable:	Yes		
Caution:	Eye irritant; use of protective goggles and gloves recommended		
Compatibility:	Will not harm new plumbing or acid-resistant porcelain and fiberglass when used according to directions		
Detergency:	Excellent		
Foaming:	Moderate to high		
Freeze/Thaw Stability:	Passed two cycles		
Hard Water Tolerance:	Effective in water hardness exceeding 30 grains		
HCL 20% Active:	29.6% by weight		
Odor:	Lemon fragrance		
Packaging:	Plastic quart container		
Rinsing Properties:	Nonresidual		
Shelf Life:	Two years in sealed container		
Specific Gravity	1.054		
Surfactant:	Nonionic	Viscosity:	< 7 cps
Surfactant Activity:	11.0%	Water Solubility:	Completely miscible

KEEP FROM FREEZING
