

**CONKLIN® FASTRACK®**

# Nonruminant Microbial Gel

Fastrack Nonruminant Microbial Gel contains a source of live (viable), naturally occurring microorganisms, live yeast, dried chicory root, vitamins and enzymes for pigs and other non-ruminant animals. Use in combination with the other Fastrack products for best program results.

**SUGGESTED USE:** Place gel between the lower teeth and cheek at the following rates:

**Newborn Pigs:** Provide 1 mL per pig at birth and as needed

**Nursery Pigs:** Provide 2 mL per pig at weaning

**Rabbits:** ½ - 3 mL per rabbit depending upon stage of life and size

**Other Non-ruminants:** ½ - 3 mL per animal depending upon stage of life and size

## MINIMUM GUARANTEED ANALYSIS

### Per 1 mL

50 million colony-forming units of lactic acid-producing bacteria (*Enterococcus faecium* and *Lactobacillus acidophilus*); 20 million live yeast cells (*Saccharomyces cerevisiae*); 3,300 international units (IU) vitamin A; 900 IU vitamin D<sub>3</sub>; 11 IU vitamin E; 35 mg niacin; 12 mg d-pantothenic acid; 3.25 mg riboflavin; 1.1 mg thiamine and 15 mcg vitamin B<sub>12</sub>. Protease from *Bacillus subtilis* not less than 3,457 Protein catalytic units, and amylase from *Bacillus subtilis* and *Aspergillus oryzae* not less than 2,074 bacterial amylase units.

**INGREDIENTS:** Vegetable oil, dried chicory root, silicon dioxide, dextrose, niacin, dl-alpha tocopheryl acetate (source of vitamin E activity), calcium pantothenate, vitamin B<sub>12</sub> supplement, active dry yeast (*Saccharomyces cerevisiae*), vitamin A acetate, riboflavin supplement, thiamine hydrochloride, D-activated animal sterol (source of vitamin D<sub>3</sub>), dried *Enterococcus faecium* fermentation product, dried *Lactobacillus acidophilus* fermentation extract, dried *Aspergillus oryzae* fermentation product and dried *Bacillus subtilis* fermentation product.

**Perishable product: Keep cool. For extended shelf life, store in refrigerator.**
