All UPS orders will ship automatically.

All less-than-truckload (LTL) and truckload (TL) orders will be shipped automatically unless the customer requests that the order be shipped at a later date, is part of a consolidated shipment, or the order contains bulk fertilizer.

- 1. The Conklin Distributor will place an order with a Customer Service Representative. If the order is over 150 pounds, contains hazardous or oversized product the shipment will ship with a less than truckload (LTL) or truckload (TL) carrier dependent on weight (please see weight limitations below for further information).
- 2. Upon order placement the Conklin Distributor will be required to provide the following information: contact name, name of the business if it is a non-residential shipment, valid shipping address and a valid phone number.
- 3. The Conklin Distributor will receive a phone call from a Customer Service Representative when the shipment is leaving the Conklin warehouse with tracking information so the Distributor is able to track their order and determine the estimated time of arrival.

The order recipient must arrange the means to unload product via pallet jack, forklift and personnel. *Drivers will not assist in unloading the shipment.* It is the Distributors/receivers responsibility to ensure the delivery address and physical location is acceptable to the driver (grade, driveway angle, posted vehicle restrictions). If these accommodations cannot be met, the driver has the right to refuse delivery at the Distributor's expense. If the Conklin Distributor requires special equipment to unload such as a pallet jack or lift-gate they must request this at the time of order entry. The maximum weight we can load onto a dry van or heated trailer is 40,000 lbs.

A maximum of 24 standard size pallets (40x48) will fit onto a dry van trailer.

- Four (4) 55-gallon drums = One (1) pallet spot / Five (5) 30-gallon drums = One (1) pallet spot

# **Consolidated Shipments**

**Consolidated shipments** consist of multiple Distributor orders tied together via a **Distributor Code**, which allows them to ship together to one destination.

Conklin requires a minimum product value of \$750 for a single order to be added to a Consolidated Shipment.

Freight charges for Consolidated Shipments will be applied based on the weight of the total shipment.

For less than truckload (LTL) shipments, a Customer Service Representative will calculate all freight charges at the time the **Consolidated Shipment is released.** 

Each Consolidated Shipment will deliver to one and only one address.

**Consolidated Shipments** containing "special order" items or products that are freezable during winter months will be held until Conklin is able to ship the **Consolidated Shipment** complete. If the **Consolidated Shipment** qualifies for the freight program under either the \$60,000 or \$30,000 bracket and is over 17,000 pounds, a Conklin Customer Service Representative will request a freight quote from one of our preferred truckload carriers. A Customer Service Representative will call the Distributor who released the **Consolidated Shipment** with the quoted freight amount. **Consolidated Shipments** will not ship until payment for freight charges has been collected.
