# GET YOUR ANIMALS ON THE “FASTRACK” TO A MORE PRODUCTIVE LIFE.

Over 30 years ago, visionary Conklin researcher Dr. Eugene Sterns developed the first Fastrack probiotic to support the health and performance of food-producing animals. His formula of beneficial bacteria, prebiotics, yeast culture and enzymes supported milk, meat and poultry production when fed to animals and became Fastrack Microbial Pack, Fastrack’s SIGNATURE PRODUCT. Fastrack has gained industry recognition for continuous formulation improvement, which forms the basis of our comprehensive program of species-specific Fastrack products.

Our product line includes a progressive array of gels, boluses, microbial packs and supplements containing beneficial bacteria necessary to aid immune response and digestive health throughout the entire life cycle of your animals.

## FASTRACK® MICROBIAL SUPPLEMENTS

Fastrack’s premium granular direct-fed microbial products are user-friendly – just top-dress, mix with feed or add it in to a TMR, depending on your management style.

### FASTRACK’S® SIGNATURE PRODUCT

#### Fastrack® Microbial Pack

- #016063 5 lb bag
- #016014 10 - 5 lb bags (bale)
- #016097 50 lb (bulk)
- #077586 1 top-dressing scoop (53 cc)

#### Fastrack® Equine Microbial & Enzyme Pack

- #041630 4 lb bag
- #041633 4 - 4 lb bags (case)
- #041636 12 lb bag

## FASTRACK® NUTRILIFT® AND FASTRACK® LIQUID DISPERSIBLE

Fastrack NutriLift and Fastrack Liquid Dispersible dissolvable powders are the perfect solutions for adding our high-quality, direct-fed microbial products through a water medicator system or to bottle- or bucket-fed animals. Fastrack NutriLift is perfect for the first few weeks of an animal’s life, due to the added specialized proteins for immune support, followed by Fastrack Liquid Dispersible.

### Fastrack® Liquid Dispersible

- #036616 1 lb container
- #036639 4 - 1 lb containers (case)
- #039305 22 lb pail
- #039310 44 lb pail

### Fastrack® NutriLift®

- #057341 1 lb container

## FASTRACK® BOLUSES

We offer two sizes of quick-dissolving boluses for your operation. The Fastrack Calf Bolus is perfect for newborn animals, while the Fastrack Ruminant Bolus is for growing and production animals.

### Fastrack® Calf Bolus

- #055467 1 container (50 boluses)

### Fastrack® Ruminant Bolus (for larger Ruminants)

- #055459 1 container (25 boluses)

## FASTRACK® GELS

The Fastrack line of gels provides a great way to supply direct-fed microbials to newborns and animals that have come off feed due to illness or a stressor. Suggested times to administer are whenever the animal is being worked, prior to and during transportation, or following antibiotic treatment. These multi-dose tubes support the animal’s digestive and immune system from day one.

### Fastrack® Equine Gel

- #038745 20 ml tube
- #037317 6 - 20 ml tubes (case)

### Fastrack® Nonruminant Gel

- #055120 32 ml tube
- #055129 12 - 32 ml tubes (case)

### Fastrack® Canine Microbial Gel

- #037986 20 ml tube

### Fastrack® Jump-Start™ and Ruminant Gel

#### Jump-Start Gel

- #056694 60 ml tube
- #056697 6 - 60 ml tubes (case)

#### Ruminant Gel

- #055368 80 ml tube
- #055145 6 - 80 ml tubes (case)
- #055152 6 - 300 ml tubes (case)
- #055160 36 - 300 ml tubes (case)
- #077313 1 applicator gun for 300 ml tube

## FASTRACK® COMPANION ANIMAL MICROBIAL POWDERS

From young to senior companion animals, support their digestive tract with direct-fed microbials. The dual purpose lid allows you to decide if you would like to shake on the powder or use the included scoop to add to your cat's or dog's food.

### Fastrack® Canine Microbial Supplement

- #038869 300 g container
- #057248 5 lb pail

### Fastrack® Feline Microbial Supplement

- #056915 150 g container

# FASTRACK® COMPANION ANIMAL SUPPLEMENTS

These easy-to-use supplements and nutritional treats complement a well-rounded feeding program for a lifetime of health and vitality.

## Fastrack® Adult Dog Supplement

Supplies additional nutrients at levels not found in most dog foods. This premium formula provides high levels of 10 chelated minerals, vitamins A, D, E, K, C and B-complex, and linoleic acid. These components complement your dog's current nutrition program with highly bio-available nutrients.

#056752 1 bottle (60 tablets)

## Fastrack® Senior Dog Supplement

This special formula provides vitamins and minerals, plus glucosamine HCl and chondroitin sulfate. Recommended for maintaining healthy, active older dogs and helping dogs with joint issues.

#056775 1 bottle (60 tablets)

## Fastrack® Canine Treats

Our treats contain lactic acid-producing bacteria for a healthier reward for your dog.

#056893 1 bag (60 treats)

## Fastrack Fortifier®

A once-a-day horse supplement containing a specialized blend of herbs, vitamins and minerals to aid stamina, joint health and appearance. Recommended to be fed with the Fastrack Equine Microbial & Enzyme Pack.

#056701 4 lb pail

# WASTE TREATMENT AND DISINFECTANT

When you have livestock, poultry or companion animals, ammonia and noxious gases are produced as animal waste decomposes. This irritates the tissue lining of the respiratory tract. Inhibodor® helps reduce the odor and Sanox II® disinfects, keeping animal performance high and damage to buildings low.

## Inhibodor® Animal Waste Treatment

Binds ammonia and reduces odors. All-natural ingredients effectively bind ammonia (NH<sub>3</sub>) in an environmentally friendly manner.

#056990 1 pint

#054841 4 gallons (case)

## Sanox II® Disinfectant Cleaner

An ultra-concentrated cleaner used to disinfect confined feeding and housing areas, eliminating carry-over of disease in all-in/all-out animal production systems.

#050357 6 pints (case)

#050328 4 gallons (case)

#077172 1 [empty] 22 oz  
spray bottle
