**CONKLIN ANNOUNCES
NEW FASTRACK[®] GEL!**

Non-Ruminant Microbial Gel Ultra

Fastrack's New Non-Ruminant Microbial Gel Ultra continues to provide a great way to supply direct-fed microbials to animals off feed due to illness or stress.

This new ultra formula still supports the digestive and immune system, but now contains:

- Added bacterial strain *Bacillus subtilis*, which will support the GI tract of non-ruminants, especially in:
 - young non-ruminants, following birth, weaning, transporting, following illness, or during breeding season
- Additional prebiotic

For questions about Fastrack's New Non-Ruminant Microbial Gel Ultra, contact Conklin Animal Products Specialist Dr. Ashley Bruce at ashley.bruce@conklin.com.
