

CONKLIN® FASTRACK®

FELINE MICROBIAL

From barn cats to fancy felines, Fastrack Feline Microbial Supplement was formulated to aid in a cat's digestion and help maintain a healthy microbiome.

Fastrack Feline Microbial Supplement Supports

- Growth and Development
- Digestion and Nutrient Absorption
- pH Balance
- Hairball Breakdown
- Coat Health
- Stamina

"We had taken a kitten in that was found on the road. Immediately, she was started on the Feline Microbial Supplement. It kept her healthy until we could get her dewormed and it helped her adjust from wet food to dry with no problem."

-Olivia B., MO

Fastrack® Feline Microbial Supplement

Top dress daily onto your cat's wet or dry food. It is recommended to add Fastrack Feline Microbial Supplement onto their wet food just before serving.

	Maintenance	Challenge
Cats or Kittens under 10 lbs.	1 g	1.5 g
Cats or Kittens over 10 lbs.	2 g	4 g

Maintenance Dosing is for times when the animal is not under stress but could benefit from maintaining a healthy microbiome.

Challenge Dosing is for non-routine situations that can occur, causing the animal to undergo stress.

Minimum Guaranteed Analysis Per 1 gram

400 million colony-forming units (Enterococcus faecium and Lactobacillus acidophilus); 400 million total live yeast cells (Saccharomyces cerevisiae); and protease from Bacillus subtilis not less than 1,874 proteolytic casein units and amylase not less than 1,125 bacterial amylase units.

Ingredients

Dried chicory root, lactose, whey, active dry yeast (Saccharomyces cerevisiae), dried Enterococcus faecium fermentation product, dried Lactobacillus acidophilus fermentation product, dried Aspergillus oryzae and dried Bacillus subtilis.

Keep stored in a cool, dry location out of direct sunlight.

Fastrack is not intended to diagnose, treat, prevent or cure illness, nor is it intended to replace prescribed medications.
